Experience

July 2015 - Now   **Programmer at Mvix USA, Surat**

- I am working as a programmer in CMS (developed using codeigniter). My tasks involves like Working on WIdgets, Optimizing views (front end part), reducing server load by minimizing requests, Reduced code execution through refactoring, code analysis and database optimization. I do optimization and scaling of PHP code structure for better and fast performance. I work on front-end also with jQuery and AngularJS.
